209 Harper Ave. Carolina Beach, NC 28428 - 910-515-3100 - j.todd.kiser@gmail.com

To whom it may concern:

My name is Todd Kiser and I have been an HVAC for over 20 years. I met Harry Boody about 10 years ago being fascinated (but skeptical) about his unique systems design approach to HVAC. The people in our industry just doesn't take change too well. I like to consider myself to be one of the more progressive HVAC contractors with a desire to stay on the cutting edge of technology in my career field.

I want you to know, I vetted Harry Boody and his HVAC systems approach carefully talking with his former clients, builders, architects, etc. and found his track record to be spotless. I don't know how he does all he has created over the past 40 years, but it works. You can't beat a lifetime performance guarantee. I have traveled to NJ, Florida, Houston, Texas and other area working on Harry's jobs.

All I can say is, our industry is in for a real awakening and I believe it's not too far off. What he does is the future of HVAC. I have tried to help Harry find HVAC contractors to install his unique design and found it difficult to acquire good quality or willing contractors.

I'm happy to be a part of this HVAC industry and my association with Harry Boody and Energy Innovations.

Please call me if you have any questions.

Sincerely,

Todd Kiser
